

OUR BIDDING PROCESS EXPLAINED

So you've seen a property in our property auction that you want to bid on - first thing you need to do is Register to Bid or speak to a member of the auction team. You can register to bid by navigating to the Auction home page and clicking on the 'Sign In' section in the top right hand corner on any page of our website. If you don't have log in details already, you will be prompted to register an account. If you prefer, you can call the Auction Department to register or to place a bid on your behalf. Our team of property professionals can talk you through the bidding process and answer any questions you may have.

Before placing a bid we strongly advise that you carry out market research and due diligence on any property you are interested in bidding on. Make sure to review any legal documents we will have for the subject property, these will be contained in the Buyer Information Pack that you can request from the auction team. This pack provides more information to help you to make an informed decision on whether or not to bid on the property and at what level.

We also recommend that before bidding you visually inspect the property internally and are completely happy with what's on offer. Full terms and conditions are viewable in the bidding section of each property page; please review the terms and conditions relevant to the property you are interested in. If you have any questions you can call the Auction Department where our team of professionals will only be too happy to help.

Starting Bids:

These are prices published for each property and are the level at which the bidding will commence. Starting Bids are for guidance only and are not reserve prices. These prices may occasionally change throughout the marketing period. Each Starting Bid has a corresponding reserve price.

Reserve Price:

This is the minimum price that is acceptable to the vendor for selling a subject lot in the auction. We do not publish reserve prices; this figure is a private agreement between the vendor and the auctioneer. Both the Starting Bid and reserve can be subject to change.

Online Auction:

A selection of the properties offered for sale on the site are only offered through the online auction. Bidders benefit from being able to bid from the comfort of their own home 24 hours a day, 365 days a year. The auction software provides every bidder the chance to have one last bid as for every bid made in the last 10 minutes, the auction end time will be increased by 2 minutes making sure the highest bid wins the auction. Online auctions are identifiable by the blue bar located across the bottom section of the main picture on the individual property listing. The online auction will start with an end date that will be clearly stated on the property details page in the countdown clock. If the vendor decides to alter the auction date we will make every effort to contact all parties who have registered an interest to advise of the changes to the auction time frames. Once the new end date has been set and all parties have been advised the auction will continue as normal.

Public Auction:

Public Auction properties are identifiable by the green bar located across the bottom section of the main picture on the individual property listing. If the property is flagged as 'Auction Room' then the property will be offered for sale at one of our Regional Auction Events, however it may still be possible to place a bid but you will need to contact the Auction Team to discuss doing so. Around 50% of the properties on the site are listed for sale by auction at one of our Regional Auction Events. While these properties are listed on the website, bids can be made before the auction end date however buyers are encouraged to come to the Auction Room and bid. There are a number of ways to bid remotely if you cannot make the auction date so please contact the Auction Team who will be more than happy to discuss the process with you.

Bidding Process:

Once you have made a bid, you will be kept up-to-date by email and via your auction dashboard which can be accessed by logging into our website. This will keep you up to speed with any properties that you have placed a bid on, or that you are watching. When counter-bidding on a property you must increase by a minimum of €500 from the previous bid. Once you have made the bid via the online system, you will be contacted by a member of our staff to make sure you are happy and to answer any questions you may have.

We will have a number of questions for you regarding your buying position and we will need to obtain some proof of ID, address and also information regarding your funding of the purchase and any mortgage offers or decisions in principle.

All properties will continue to be offered for sale until the end of the auction period unless we are instructed by our vendor to accept an offer prior to the completion of the auction. You must register your interest in the property at the earliest opportunity to avoid disappointment, either by “watching” the subject, or by contacting us directly.

Once an online auction has ended and your bid is successful or if you have an offer accepted over the course of the auction period, there will be a maximum 2 hour period when you will be required to pay the Deposit and Contracts.

The Deposit:

This is to be paid by bankers draft, bank transfer or card payment. Please note, we will not proceed with the transaction until we are in receipt of cleared funds. The Contract for Sale must be signed on acceptance of offer or upon completion of auction when the highest bid is in excess of the Reserve Price. Once the Contracts for Sale has been signed by the buyer and the payment of the Deposit has been confirmed, Memorandums of Sale will be issued to the buyer, the buyer’s solicitor, the vendor and the vendor’s solicitor and will confirm the details of the instruction.

Please note: If you are the successful bidder at one of our Public Auction Events you will be required to pay the Deposit and sign the Contract for Sale immediately following the fall of the hammer. Following the distribution of the Memorandum of Sale to all parties the solicitor’s will liaise for closing to take place 28 days later.

Exchange of Contracts:

The point at which a vendor and purchaser exchange binding contracts with the payment of a Deposit, at the same time agreeing to a completion date.

Closing of Sale:

This is the date you must make full payment for the property. The property is now yours and the vendor must handover the keys and vacate the property, congratulations!

Further information: If you still have any unanswered questions or wish to talk to someone further, please don’t hesitate to contact a member of our Auction Department. They are approachable, friendly and able to offer honest and sensible advice about selling or buying via our auctions.
